# Bryan Guner

Web Developer  
New York City Metropolitan Area

## Summary

Web Developer and Electrical Engineer.

I have a bachelor's degree in electrical engineering from TCNJ and a web development certification from Lambda School, and I am an exceedingly creative and passionate engineer. I genuinely enjoy and excel in a collaborative environment. I often assume a hybrid role between creative design and leadership. I have a tendency to become deeply entrenched in my work when left to my own devices but I am perfectly adaptable to a host of different leadership styles.
