JavaScript | GraphQL (Apollo) | SQL (PostgreSQL) | Node.js | Bash (Linux wiz) | NoSQL (Firestore) | REST
Rust | React | Next.js | Python | Flask | Django | TypeScript | WebPack | Leadership | HTML/CSS
Remote Management | Coaching / Development | Mentoring

📄 Profile

A left brain artist with a passion for learning new things and applying knowledge to unfamiliar situations in creative ways. I bring a strong work ethic, great people skills, and an unyielding determination to solve the problem.

📁 Projects

Sriracha UI [🔗](#)

A React Styled Component Library

- Sriracha UI [🔗](#) is a React styled component library that uses the Material UI color and drop shadow theme.
- Designed to help you quickly layout and customized your site to perfection, with ease.
- Implements web pack to export fully customizable React components.
- Built with styled components and styled map to create incredibly beautiful components with extraordinary flexibility.

Tetrix [🔗](#)

A Tetris Clone

- Developed back end [🔗](#) with TypeScript, Node, Nodemailer, TypeGraphQL, TypeORM.
- Converted front end over to Next.js and added TypeScript.
- Built out forgot password functionality on front end.
- Implemented Apollo Client and set up front end to handle cookies.

NutriJournal [🔗](#)

A Nutrition Tracking App

- Implemented 3rd party authentication with Firebase.
- Constructed an efficient and effective routing system for our web app.
- Developed full stack features for tracking a users macro's over time with Chart.js.

💼 Professional Experience

Lambda School

08/2019 – present | Remote, USA

Team Lead

- Successfully lead 3 teams through different parts of the curriculum (one through web, two through labs) with a 96% pass rate.
- Contributed to Lambda's open source "Labs Guides" repository, writing a blog teachings students and team leads how to set up ESLint and Prettier [🔗](#) in their team projects.
- Lead 1:1's, stand up's and team retro's to help keep team on the track for success.

Italic

11/2016 – 10/2018 | Austin, TX, USA

Server

- Maintained an average of 25% - 30% average tip through most nights.
- Wrote an preformed educational songs about Italian wine grape varietals during our Saturday meetings, where we would go over and discuss the nuances of Italian wine along with new product we we're getting in.
- Learned an incredible about about wine, coffee and how to be the best version of myself from some amazing friends and leaders.

Self Employed

11/2016 – 10/2018 | Austin, TX, USA

Street Musician

- While I worked at Italic, I started a side business playing guitar on the streets in downtown Austin.
- Over the course of 2 years I was able to see an over 500% increase in average tips.
- Investing money I made from performing in the street I was able to upgrade my gear (street amp, microphones, looper pedal, ect.) and expanded and built upon my show.

🎓 Education

Lambda School

02/2019 – present | Wimberley, USA

Full Stack Web Development

Attending Lambda as a student and being a Team Lead here, for both curriculum and labs, has been an absolute pleasure and an experience that has truly allowed me grow my skills in coding and leadership alike.
